Bi-annual News Letter

Secretary's Messages

I am very much delighted to know that the bi-annual news letter of the even semester of 2017 is being released. This exercise will pave the way to bring out hidden talents and creativity of our students.

I congratulate all our faculty and students for this endeavor. I am certain that our students aim to get not only degree but also gain confidence, courage, commitment and skills required to achieve their goals. It is a sparkle in the eyes of the students that endear and energize the quest of life.

To be successful in life one should practice discipline. In order to obtain it, one should have honesty, punctuality, good behaviour, obedience, orderliness and self-restraint. If these yard sticks are reached along with education the fruits of life can be tasted. So obtain knowledge, upgrade your skills and prove your competency for, 'You are the creator of your own destiny'.

Principal's Desk

Creativity is not the exclusive domain of great writers, artists and scientists. Everyone can be creative and even a child is creative in its play with clay. Creative people have done something different to remember. Imagination and creative thinking form part of a strong system of memory which provides opportunities to exhibit the inner talents.

Life is an endless series of opportunities awaiting exploration and with our ability, we must contribute to ourselves and to others by thinking positive thoughts and doing positive action.

Our mission is not just to attain excellence in academic but in nurturing and growing the fertile minds of students so that they become productive and responsible citizens of our country with human values and character qualities. The impacting academic journey has added a new dimension towards empowering the students to face the challenges of the competitive globalized world.
